**Comments:**

online access to tutorial notes would have been appreciated

He's a good Teacher.

---

The tutorial ccompliments the lectures so well and are very well prepared.

---

Eric Beiers knows a lot about environmental science, and cares about it. Thus he knows a lot about the topic, and readily shares information about it with us. He will sometimes go on tangents to explain certain things, which is good because it gives us a better understanding of the topic.

Tutorial is good.

---

very well informed, approachable, friendly, and always there to help.

---

Bad tutorial leader; cannot present effectively.

---

good job, eric.
